The news comes by wire that the Spanish crisis has arrived, and that it is now only a question as to who will gain the throne of Alfonso. The boy ruler can no longer hold the Spanish populace in check, or maintain his grasp on the throne. Intrigue is now the order of the day in unhappy Spain. Sagasta's ministry has fallen, and it is certain the new cabinet to be formed will be a military one. Campos, Weyler and Don Carlos are watching the trend of events with the hopes of being swept on the tide to the throne.

There is no building boom in Kingman and the Hancock scare is liable to retard the building up of the burnt district. Some people appear to think that property has increased in value lately, but this is an error. E. F. Thompson sold seven lots extending from the corner of 4th east along Beale street, for 4250¢. A windmill and water tank worth 1000¢ is on the property, besides buildings worth considerable money and from which a nice monthly rent roll is received. Property is just as valuable as it was one year ago, no more, no less.

The Board of Supervisors have been in session the greater part of this week, and have transacted a great deal of business. Thursday they met as a Board of Equalization, and have been hard at work enriching the property owners of the county. The MINER acknowledges the attention of the board in the way of adding to our wealth. Our cotemporary down the way feels richer by 750¢ than it did prior to the session of the board. Few escaped the war tax levied on this occasion. The board is doing a good work for the people, and all raises should be borne in the interest of a lower tax levy.

A Monument to "Buckey."

FRIENDS OF MOHAVE:—Like myself, you all knew and held in the highest admiration, as a man and progressive fellow citizen, "Buckey" O'Neill. He has lived with and among us for many years, and all will bear witness alike, that his greatest aim has been for the up-building and advancement of the territory. Our country called him and he obeyed and while fighting under and for the stars and stripes in the defense of his country, he fell and his name will go down in history as one of the distinguished heroes of our present struggle.

It seems fitting that we should show our appreciation of him as a man and soldier by contributing to a suitable monument to mark his last resting place. I would suggest that the editors of the two papers here be delegated to receive such contributions.

I think the people of the counties of the Territory will join in with us and that we will easily raise a suitable sum. I will head the list with 5 00¢ and hope friends will follow suit.

O. D. M. GADDIS.
